

## BABY line

Our Cotton Plus - BABY line has been designed for baby daily gentle care and hygiene.

**Pure high quality cotton wool products**, bleached exclusively with hydrogen peroxide without optical bleaches, **hypoallergenic and dermatologically tested**. Only the best for our children!

Our **COTTON BUDS 56** are suitable for a safe and effective baby daily cleaning, their safety rim is designed to limit penetration to help protect baby's ear.

For everyday diaper changes, face and hands cleaning we propose our **BABY 60**: soft and delicate 100% cotton pads, made with hydro-entangled cotton wool which is particularly soft, resistant and fluff free. They are suitable for a gentle daily cleaning while respecting babies and children skin's natural physiological balance.

Baby 60 pads should be used simply by adding water, natural oil or gentle baby cleanser.

Cotton Plus Baby 60 are packaged in bags with colorful images to entertain the children during diaper change.

Thanks to the practical pre-cut between pads final consumer can select the size of the pad by using one at the time or more not separated.

And for the mothers who always pick the best for their own kids without having to compromise on quality, we developed the **PROFESSIONAL PADS 200**: a large format of pure cotton wool pads supplied in a practical resealable bag with string. A big savings to the consumers and the best care for the newborns!
